No Work. Don't risk your life for your companies profits.

No Rent. Every human deserves a shelter, especially now.

No Debt. Nobody should be worrying about bills during a pandemic.

We are a diverse, inclusive organization dedicated to building a coalition of organizations and individuals of various political tendencies to save the lives of vulnerable, marginalized people in the USA and around the world.

We welcome all exploited members of society: workers, the disabled, LGBTQ+, indigenous people, the neurodivergent, the mentally ill, and anyone else who is suffering without adequate relief through this pandemic.

Our Rallying Cry: “DO NOT ACT ALONE.”

By working together, we believe we can build a working class that is tactically unified, organized, and coordinated in our opposition to oppression and exploitation.
We did not start this movement.

We started this organization after we saw working class people launch a wave of labor strike and rent strike actions across the world in response to the severe negligence of our “leaders” as the pandemic has emerged.

We do not own this movement.

Working class individuals and organizations own this movement. If you are suffering right now, we want you to own this movement. We’re just here to help.

We are not leaders

Our goal is to help guide individuals to organizations, tools, and strategies they can use to self-organize and self-empower. We are here to signal boost, fund raise, and coordinate established groups.

Most of all, we are asking for you to get involved. Join mutual aid and worker organizations in your area. Organize your workplace. Take direct action to demand radical change and to save your own life.

GenStrike.org

The first step you can take is dropping us an email. We'll send you information about how you can join our movement.

If you are reading this right now, there’s a good chance that you are afraid. You are insecure. You aren’t sure what to do to secure your own safety and to protect yourself from the ongoing pandemic.

You Are Not Alone. Save The World From Your Own Home

#generalstrike2020

We are working to unite workers from across the USA and around the world to stand up and fight for our own lives—from the safety of our own homes.
